After researching the sampling laws I think the safest way to proceed would be to obtain the picnic license and have Sawmill staff the service of beer with their licensed staff. I will approve that today to head to the Health and Safety Committee and then the Common Council for the approvals.

Dustin from the Street Dept. offered his assistance with the barricades and snow fence barrier. He is copied into this email too but please reach out to him to arrange your needed supplies for the event.

If you have any more questions or concerns please feel free to contact me at your convenience.

Turnout Time*

* Turnout Time is defined by NFPA 1710 as the elapsed time from when a unit is dispatched until that unit changes their status to "responding." NFPA 1710 sets the standard for turnout time at 60 seconds for EMS calls and 80 seconds for fire calls. Using 90th percentile gives an accurate snapshot of these calls. An emergent response indicates the use of lights and sirens to a call and the responding time is less than 6 minutes
