An emergent response indicates the use of lights and sirens to a call and the responding time is less than 6 minutes

June Trainings – Items in red are required/mandatory trainings

- Personnel reviewed and calculated several different hydraulic calculations to determine the correct Pump Discharge Pressures needed to supply varying lengths and diameters of hoselines.
- June continued our trend of performing pool fills in the response area with 22 of them being completed in June. This brings the grand total of 33 pool fills performed this year.
- Monthly Shift Skill Drill for June was a practical drill at Ott's Park and applying the hydraulic calculations used in an earlier training. This drill was used to simulate fire scenes where multiple lengths and diameters of hose lines were used at the correct pressures by having the MPO quickly determine the pressure needed to supply each line and adjusting the pump pressures using various techniques.
- The Monthly EMS Drill for June included an introduction to the new E.M.S. medications and protocols to personnel.
- Crews trained on the deployment and use of the Rapid Deployment Craft for water rescue incidents.
- Firefighter/Paramedic John Kraegenbrink attend the Wisconsin International Association of Arson Investigators conference in Stevens Point. This outside training allows personnel to further their knowledge regarding fire investigations.
