Turnout Time*

* Turnout Time is defined by NFPA 1710 as the elapsed time from when a unit is dispatched until that unit changes their status to "responding." NFPA 1710 sets the standard for turnout time at 60 seconds for EMS calls and 80 seconds for fire calls. Using 90th percentile gives an accurate snapshot of these calls. An emergent response indicates the use of lights and sirens to a call and the responding time is less than 6 minutes

June Trainings –

- Personnel were assigned to complete the online training "Oxygenation" with FOAMfrat. The training video along with a test were in depth about oxygen for emergency care and the benefits to patients.
- Crews worked with Boat 69 and the Hummingbird Sonar Unit in relation to our emergency responses with it.
- Firefighter Paramedic Kendall Nelson is now working on the drafting; including hydrants, with each one of our vehicles and becoming familiar with the various pumps that we have.
- FF Nelson attended Active Shooter Incident Management in Madison and came back with some great ideas that she has voiced interest in bringing into our department. She is contacting our local law enforcement to see if they would like to work on a joint training in the future.
- FF Nelson attended WI Propane Education & Research Council class. This was hosted at Tomahawk Fire Dept.
- Extrication training was completed by A-shift at Rods Wrecking with two vehicles being provided to sharpen our skills with our learned techniques for stabilization and extrication of occupants.
- Fire drills were conducted at Bell Tower, Jenny Tower, Park Place and Stone Bridge. The drills help residents, staff and fire dept. personnel to be familiar with procedures and working in conjunction with each other.
- Safety training was conducted with TB Scott Library staff explaining expectations of the staff in case of an emergency.
- B-shift received additional training on the Laedral Simulator (training mannequin) from the companies regional representative.
