Turnout Time*

* Turnout Time is defined by NFPA 1710 as the elapsed time from when a unit is dispatched until that unit changes their status to "responding." NFPA 1710 sets the standard for turnout time at 60 seconds for EMS calls and 80 seconds for fire calls. Using 90th percentile gives an accurate snapshot of these calls. An emergent response indicates the use of lights and sirens to a call and the responding time is less than 6 minutes

September Trainings –

- Personnel were assigned to complete the online training "Trauma Assessment part 2" with FOAMfrat. The training video along with a test is based on the further advanced techniques used for assessment of trauma patients along with beneficial treatments.
- Crews practiced search and rescue, wall breaches, ventilation and several other skills on an acquired structure (West Side Laundry Mat).
- Probationary Firefighter Paramedic Kendall Nelson spent time reviewing hose advancement and also review roads in our coverage area. She also familiarized herself with the location of several area businesses.
- Scott Gomoll attended the MABAS conference working with representatives from all across the state.
- Several members worked on training with splinting and IV pumps.
- Several Thermal Imaging Cameras were tested out during our training events.
- Bryson Cruise attended a train the trainer conference called "Responder Strong". Focused on first responders' mental health. He can now present this training to any first response agency including our department and area law enforcement agencies.
- Ross Witucki attended the "Fall Fire Conference". This conference had presenters that discussed leadership and direct relationship to safety.
- Bryson Cruise has joined the Wisconsin Task Force and attended the initial onboarding course.
